## PROJECT

### Online job Listing Portal

The Online Job Listing Portal is a web application that connects job seekers with employers, allowing users to search and apply for jobs easily. Employers can post job openings and manage applications, making the hiring process faster and more efficient.

### Fund Flow

Fund Flow is a peer-to-peer investment and lending platform that connects borrowers directly with investors through a secure digital system. The platform simplifies fund management, improves financial accessibility, and enables transparent, fast, and efficient lending transactions.
